

## 27' Commander

Everything you could ever want out of twenty-seven feet of powerboat is in this fiberglass Commander.

She sleeps four in two V-berths and a convertible dinette. The cabin interior has been color-styled around rich, real wood mahogany bulkheads. The carpet and upholstery colors are white, brown, and red with black accents. Along with custom hardware and new window treatments, the effect is stunning. To port, a compact galley layout, complete with alcohol stove, ice box, sink and storage galore.

Twin Chris-Craft 200 hp V-8 engines reliably deliver speeds up to 38 mph.

Standard equipment includes bilge blower, helmsman and

companion seats with folding foot rests, radio ground, mufflers, fuel gauge, and dock-side power connection.

Above decks, are deck hatch, chocks and cleats, international navigation lights, stern pole and ensign, ventilating windshield, and big double wipers that can handle squally weather as if it were light drizzle.

The 27' Commander has what it takes to get you where you want to go, and do what you want when you get there.
